This is the most annoying, time wasting and horrid game ever developed, but it's still charming in its own weird way, buy it!. A fun little dungeon crawler! Thumbs up for the flawless linux support. Also thumbs up for the permadeath mode! :). 10/10 would go back to the family farm.. Contains lots of:

- Features
- Gameplay
- Graphics

Overall perfect Fortnite killer. 10/10. Saw an early preview for this game, and have not been disappointed.

Granted it's early access and it lacks a feel of being complete, it leaves me really hoping the developer and this game are around to stay!

The dogfighting feels great, the auto mode not so much. Hope to see the swapping between the two become...smoother and more fluid feeling.

Stations and third person play are at a great place for a start, would love to see more content (traders/vendors..hell why not even real estate?/industry commercial opportunity?) available in each. There's a chance to build a thriving galaxy there, I see nothing but potential!

The ship models are pretty, though so far choosing between them feels more a matter of aesthetic appeal than finding any suited to a particular role. Hopefully specialized chassis (and ways to upgrade them perhaps?) are something planned for down the road.

Customizing the player avatar would be cool, and hopefully all of that too is available down the road.

Well worth the \$20 to get an early feel for it, many games are asking for more and delivering less with a finished product.

For an early access with so much potential going forward: 9/10

. quality zombies mode. Really fun party game. Some of the lies are pretty ridiculous but that's what makes the game fun. Many hilarious moments shared with friends while playing this one.

Yes i recommend this game.

Its been one.. screw it, ITS BEEN THE BEST sitting experiences i have had with the vive.
Buy it for full price, you will not be disappointed.

one negative review said he didnt like it because its on rails, its actually better this way.

if you have any doubt, it took me 3 hours to complete on normal difficulty, but it touches me in ways that i will keep replaying this game. seriously, purchase this game, 10/10

im not gonna give away any spoilers, just go enjoy the game yourself

PS.. no im not the developer saying this to promote this game.. Great Devs. Screw Epic Games.. Nice to have song pack more ?. Well, I just finished up Pound of Ground in two sittings and I was not impressed. I'm a fan of zombie shooters but woof, this one is rough... This game has crashed roughly ten times randomly during gameplay, which never happens while I'm playing any other game. Nothing more annoying than driving across the map over and over again after a crash from loading another section of the map.. It's full of repetitive missions and tons of open field back and forth driving. This game is only worth it if it's on sale (75% or higher) and or you need a good laugh because the AI in this game is so awful that it's actually funny. 6/10 and I'm being generous. I'm recommending the game because a D is still passing.. I tried playing the game but the UI is really confusing, and even with a somewhat descriptive tutorial, it gives names to buttons with pictures. While I am a big fan of the Zoo Tycoon series, the UI of this game is a huge bother for me, and I just can't continue because the buttons are all... well I don't know what the campaign is even asking me to press.. something wrong with this game. Max FPS of 5 control movement jerky, not surprisingly and nothing to explain it.. A day after purchase there is a sale.. I CANT PLAY WITH WINDOW FRIENDS?!?! This holiday game has you recovering stolen presents, which seems like it would be easy, but some spots in levels are pretty tough or require tight timing on your jumps; completing a level clean feels very satisfying. In my initial playthrough, I ran into a few technical snags, but the team was quick to address every reported bug and this seems to be completely fine by the time I finished completing all the level objectives. There's an unlock system for more playable characters too, so you're not limited to playing solely as Santa, which is a nice addition. I enjoyed my time with this one.. Thank god this dlc allows me to pursue my lifelong dream of being a full-time fursuiter
